Abdomen and Thighs
Breast
Nose

Chairmen:

Axel-Mario Feller | Wolfgang Gubisch | Dirk F. Richter

Dear colleagues,

After the first successful symposium in Stuttgart 2011 about the management of secondary aesthetic surgery we are encouraged to continue and advance this format.

This advanced symposium is intended for plastic surgeons and residents in expanding their knowledge about the current management of problems after aesthetic surgery.

Assessment and management decisions in treatment of pitfalls after aesthetic procedures of the breast, trunk, thighs, face, eyelids and nose will be presented by a distinguished international faculty.

Live surgery will be performed at the Frauenklinik Dr. Geisenhofer and broadcasted to the auditorium in the Sofitel-Hotel, Munich. This live broadcast of different operative salvage procedures allows Symposium participants to observe and continuously interact with the surgeons conducting the operations.

The program will encourage lively discussion and promote interaction with the faculty resulting in a highly educational experience.

We invite you to come and take part in this exciting and valuable event in Munich
