

Dear colleagues,

the focus of our meeting this year will be sequela of distal radius fractures. The many complications we see in daily practice are often challenging problems. For selected participants we will continue with our double workshop on cadavers at the IRCAD in Strasbourg.

The first 40 registered participants will be admitted. The course will deal with either open or arthroscopic surgery. Official language will be English.

We hope to see you in Markgröningen for what is sure to be an exciting and productive symposium.

Best regards,

Prof. Dr. Max Haerle
Clinic for Hand and Plastic Surgery
