WELCOME

Dear Friends and Colleagues

Again, it is my great pleasure to personally invite you again to the 7th International Breast Symposium Düsseldorf (IBSD) at the InterContinental Hotel situated at the Königsallee.

Once more, we have been able to recruit national and international experts with a great experience in all areas of aesthetic as well as reconstructive breast surgery.

The aim of our 7th Symposium is to have lively scientific controversial discussions together with the participants and the faculty. Again we will focus on pro- and contra sessions to take the great opportunity to strengthen the multidisciplinary approach between the colleagues to create a platform for an open discussion from different perspectives.

Further we will have parallel teaching sessions lead by renowned plastic surgeons or gynecologist, to provide hands-on and interactive courses for young breast surgeons and gynecologists in their clinic or private practices.

The following topics are focused to surgical indications and selection of appropriate techniques for breast surgery:

- Reconstructive breast surgery
- Aesthetic breast surgery
- Breast conserving therapy
- ALCL & the choice of implants: will there be an impact in the future?
- Session mastectomy & reconstruction
- Hybrid breast reconstruction
- The marking session
- Education & training in breast surgery
- Lipofilling for augmentation
- Acellular dermal matrices (ADM) & meshes
- Reconstruction – radio therapy
- IBSD championship 2019
- Best case - best save session

I am really overwhelmed from the members of faculty. Without their time and support, it would have been not possible to accomplish this fantastic program.

I am looking forward to welcome you in Düsseldorf.

Kind Regards
Prof. Dr. med. Christoph Andree
