**CIRUMED**  
CLINIC

It is our pleasure to announce our 7th Marbella Live Surgery Course on the 27th & 28th June 2019.

The event is totally focused on live surgery, designed to give a highly practice orientated, practical teaching experience. It is our objective to provide surgical inspiration, valuable take-home messages and overall a boost to the practices of all our guests.

## DAY 1 - SAFE COMPLETE MAKEOVER SURGERY

We will be dedicated to **safe complete makeover surgery** with simultaneous shaping of breast and buttocks. Special dedication is given to the hot topic of safely performing megalipofilling of the buttocks. This is not only the focus of our live surgeries, but also the anatomical lectures by dissection experts.

## DAY 2 - COMPOSITE BREAST AND BUTTOCK AUGMENTATION

Composite surgery of both breast and buttocks, combining lipofilling and silicone implants is one of the hottest topics in modern Plastic Surgery. Four expert surgeons in the field will demonstrate their approaches in Live Surgery. A real practice booster!
