CONGRESS ORGANIZATION

congress@bb-mc.com
www.bb-mc.com

@kgmeeting

"The first KG Meeting, held in Munich in February 2025, was a unique opportunity for leading plastic surgeons and dermatologists from Europe and Korea to exchange valuable expertise and insights. I very much look forward to the second meeting in Vienna in 2027."

**Dr. Gun-Young Ahn, M.D., Ph.D., Board-Certified Dermatologist, Korea,
Founder, Dr. G & Agnes Medical**

"The Korea–Germany Face Meeting offers an unparalleled opportunity for physicians and industry partners to exchange and collaborate. From an industry perspective, the engagement from German physicians was exceptional! With world-class speakers and interactive sessions, the next meeting is a must-attend for physicians and partners!"

Bella Yebin Jo, TENTECH

"The first KG Congress was a great success! For Merz Aesthetics, the organization, topics, and target audience were perfectly aligned. We look forward to Vienna 2027!"

Stephan Becker, Merz Aesthetics – Country Manager DACH, Germany

"The German–Korean Aesthetics Congress in Munich was an absolutely exceptional event with numerous innovations from Korea that are not yet widely known in the aesthetics scene here. From my perspective, the next congress in Vienna is therefore an absolute must for every physician working in aesthetic medicine."

Michael Weidmann MD, Dermatologist, Germany

"The exchange at the KG Meeting in Munich 2025 was a great enrichment – not only because of the inspiring lectures, but also due to the authentic insights into Korean innovations in products and technologies. I am excited and very much looking forward to the next KG Meeting!"

Alexandra Ogilvie, MD, Dermatologist, Germany
